

# Connecticut Valley School of Woodworking

## Introduction to Woodcarving with Dan Faia

Saturday & Sunday, March 29 & 30, 2008

9:30am - 5:00pm

### Tools:

1 inch bench chisel (SHARP!)  
compass  
ruler or combination square  
pencils  
Norton combination India stone

### Carving tools:

I suggest you purchase these in advance so you are assured of having the tools you need for class. The number to the right of each tool listed is the stock number for the "Swissmade" brand available from Woodcraft – 10% student discount applies if you purchase from the Manchester Woodcraft store

#7/14mm gouge	05E04
#8/13mm gouge	05F05
#5f/8mm fishtail gouge	05M07
#1s/8mm skew chisel (double bevel)	05A10
#16/6mm v-parting tool	05H19

The school will have a set of these tools available to share (you may have to wait!) should you prefer not to purchase all of the above listed tools.

The materials fee (\$24.50) can be paid in advance or when you check in at the beginning of class. This includes all the materials you will be using in class (including a Norton hard Arkansas slip stone)

I am looking forward to a great class!

Bob Van Dyke  
Director  
Connecticut Valley School of Woodworking
